Beautiful new complex in Pilar de la Horadada, walking distance to schools, a park and the main street of the village with all shops, bars, restaurants, etc. Pilar de la Horadada is a typical Spanish village, and the complex is only 3,5 km from the Medsea. The south facing complex consists of 12 apartments: 6 ground floor bungalows with terrace and patio and 6 top floor bungalows with terrace and solarium. There are bungalows with 1 bedroom / 1 bathroom (our ref. NEW-0487a), and 2 bedrooms / 2 bathrooms. All come with a spacious living / dining area with open kitchen and parking space. Included in the price are white goods, automatic blind in the living room, LED-lights in- and outside, pre-installation of airco, and video intercom. There is a beautiful common area with pool with waterfall, toilet, chill out area, parking space for bikes, pre-installation for charging electric vehicles and installation of photovoltaic panels for self-consumption in common areas.
